*** GREENBRIER EQUIPPED FOR OUTDOOR FUN AND LIVING! ***

SLEEPER UNIT

Waterproof olive drab canvas with collapsible metal frame supports and plywood base. The unit is 6½ feet long, 4 feet wide and 33 inches high. Includes a two section ladder. Mattress and bedding not included. Folds neatly for traveling.

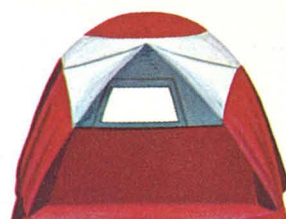

PART NO. 985102

ROOF LUGGAGE CARRIER

A 6 stanchion deluxe carrier that attaches to the roof of the Greenbrier. The carrier will add considerably more usable luggage space for a large variety of cargo.

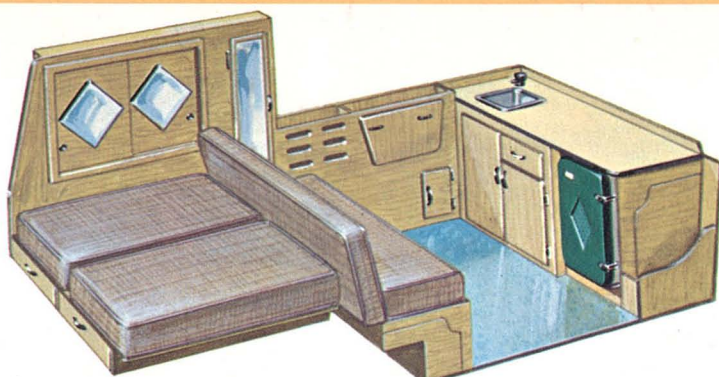

PART NO. 988398

POP-UP TENT UNIT

An 8 by 10 foot tent made of sail boat drill cloth (7.68 ounce). Complete with fiberglass ribs, sewn in floor, large window and mosquito netting for opening. When erected tent has 6 foot 4 inch head clearance. Folds into a neat package.

PART NO. 985101

CAMPER UNIT

A custom unit that converts the Greenbrier into a mobile home. The unit includes wardrobe storage, countertop with storage space

below, ice chest, sink, 11 gallon water tank, vinyl floor, table, drawer storage, drapes, rear storage space.

PART NO. 985654

CUSTOM TABLE

A large 2 by 4 foot table that converts the Greenbrier into a mobile office or recreation room. The table can be removed quickly and used out of the vehicle for picnics.

PART NO. 985107

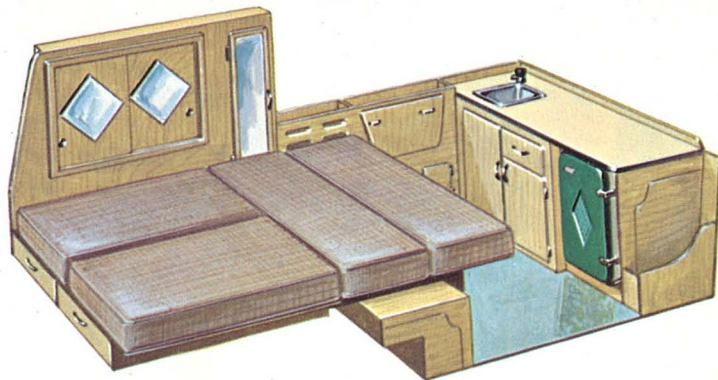

FIRE EXTINGUISHER

A 2½ pound, dry chemical extinguisher, rated "6B:C" by Underwriters Laboratories. Rated for two types of fires; flammable liquid and electrical fires. Approved by (ICC) and U. S. Coast Guard regulations; "Do-It-Yourself" kit for recharging is available.

PART NO.

985592—EXTINGUISHER

985593—RECHARGE UNIT

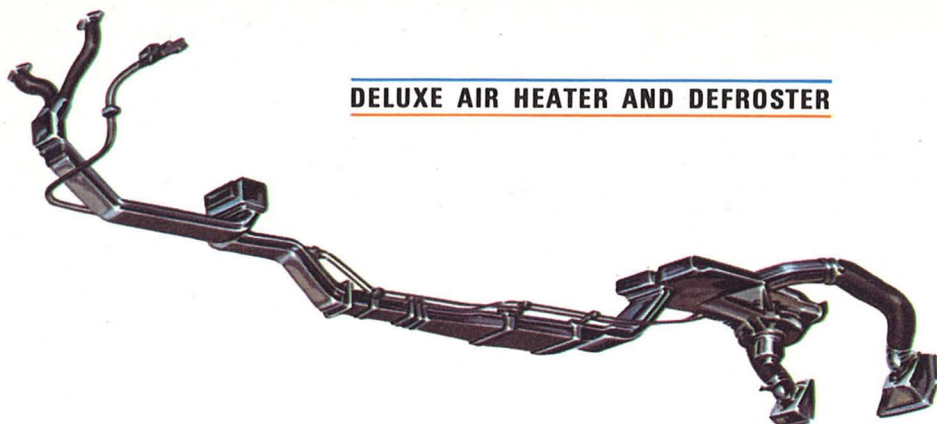

CAMPER UNIT FOR NIGHT USE

The polyfoam cushions can be made into a comfortable bed for two. The rear seat cushion and back

rest plus the two additional cushions can be assembled to make up a bed quickly and easily.

PART NO. 985654

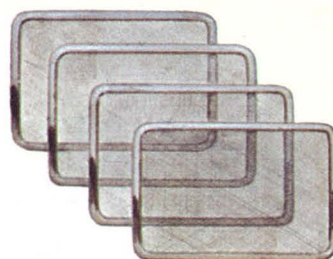

DELUXE AIR HEATER AND DEFROSTER

An air heater that utilizes the engine heat to provide fast heating and defrosting. The engine heat is circulated by the high capacity three speed centrifugal blower motor and

fan that is mounted on the heat exchanger with a temperature control system that blends the heated air with outside air.

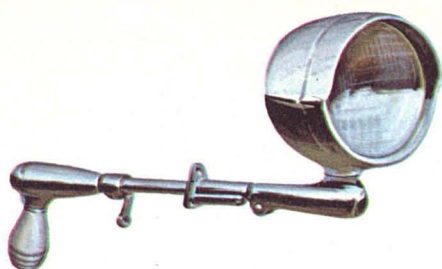

PART NO. 985698

WINDOW SCREENS

Rust proof aluminum window screens for the four side windows. The screens mount to the side windows without interference with the operation of the windows.

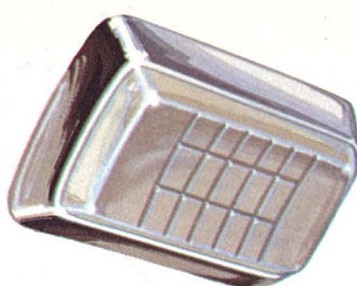

PART NO. 985100

SAFETYLIGHT

An ideal lamp for a camper unit as it can be installed on the left or right hand side of the Greenbrier. It casts a beam of light up to 1500 feet from vehicle. The safety-light has a rear view mirror incorporated into the lamp head.

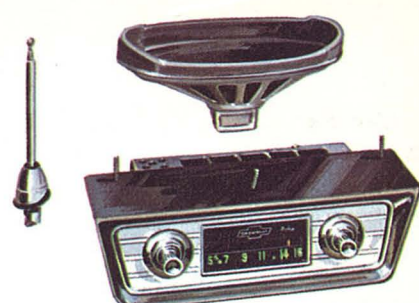

PART NO. 988335

DOMELIGHT

The lamp attaches to the roof of the Greenbrier and lights the entire rear compartment area. Ideal lamp for a camper unit.

PART NO. 988346

CUSTOM MANUAL RADIO AND ANTENNA

All the latest electronic developments in radio circuitry and reliability. Features 6 transistors, 3 diodes, printed circuit boards, direct coupled audio system and a 6 by 9 inch high fidelity speaker.

PART NO. 985814
