

1969 Corvair Vehicle Roster and Production Data

as of February 4, 2024

1483 vehicles, 25% of total production

1969 Corvair Option Totals as produced by Chevrolet are presented on pages 5 to 12 courtesy of Dave Newell. Previously unpublished until their appearance in the CORSA Communique of November/December 2022, these production figures were researched and compiled by Dave Newell from internal GM records and his own Corvair library.

1969 Corvair FINGER TIP FACTS "30th Anniversary Edition", by Mark Ellis and Dave Newell, 1999. 220 pages of stories on ~50 cars, survey on options, explanation of windows stickers, restoration information, and more. An important information source. Available from Clarks Corvair Parts (www.corvair.com) as item C10049A while quantities last. Get one now, as it's unlikely to be reprinted.

Please email updates, errors, and any newly discovered data or vehicles to:
69Corvairs@gmail.com , Dave Leonard, 1969 Corvair Roster Editor

4729	10567	04A	Hugger Orange	Black	110	PG

* Buick & Olds Color, appears as Brown

Special Paint Car data courtesy of Dave Newell (chevrobia@yahoo.com), published in CORSA Communiqué, May 2022.

Roster color-coding key	
	Blue shading indicates a vehicle added since the February 2022 publication of the roster.
	Green shading indicates a new vehicle added identified from the CORSA Vehicle Registry as of 1/15/2022.
	New or updated vehicle information since the last publication,
	Orange shading indicates a VIN un-verified or in conflict. For example, 0338 was claimed to be 0333, a 500, but documentation exist proving 0333 is a Monza Convert. So until supporting documentation surfaces, the un-documented vehicle will be flagged and recorded as 0338. 8 and 3 are commonly mis-read..
	Red shading on the roster indicates a vehicle reported stolen.
* NOTE:	The interior color code (A, D, and G) was previously thought to indicate body build shift. They do not, they are the interior paint color, and are consistent with the trim codes of 700-708.

Notes:

1) RPO Numbers with their Exception Letters were used on Window Stickers, Car Shippers and Factory Invoices. Example: 3912BB = Cortez Silver; 3 = Corvair Option.

2) Fisher Body Tag color code example: 50 - 50 = Dover White Lower Color – Dover White Upper Color. Two-Tone Colors weren't available for 1969 Corvairs.

3) Color Production Figure Breakdowns by Model or Body Style aren't available.

* Referred to as "Frost Lime" in some literature.

** Exclusive 1969 Chevrolet Color.

*** Not available on Corvairs until January 1969. \$12.65 extra cost but surcharge was dropped by mid-March.

NOTATIONS:

* Could not be ordered separately.
For these rare options, more documents are needed to determine various exception letters which weren't listed in Chevrolet production reports and/or to define some or all of the exceptions listed in the reports.
(1) Front and Rear Seat belts were standard on all models starting with the 1966 model year.
(2) Front Shoulder belts were standard on 1969 Coupes, optional on convertibles. Rear shoulder belts were optional on all models.

1969 Corvair Vehicle Roster
Production Data - Options

(3) "Y" Belt RPOs: These three Y RPOs appeared in Dealer Price Schedules on 1-2-69. YA1 and YA3 appear in one production report but not on others. None appear on any known Window Sticker, Shipper or Factory Invoice, nor are they listed in the Assembly Manual or any known Chevrolet bulletin. Their application would be determined by RPO Exceptions but none are ever listed. Mark Ellis ignored them and they appear to have been a failure. But they're here FYI.

(4) A82 - All 2,897 cars in Calendar Year 1968 were built with the A82 Head Restraint option and A82 was shown on the their window stickers. ODDLY, 649 OF THE 3103 CARS built in calendar year 1969 were included in the production record total for A82. Also, before 1-1-69, owners could request their dealer to remove the restraints.

(5) ZQ7 was for 189 cars sold by Chevrolet to GM Canada for their sale in Canada. It doesn't include 17 additional cars sold to GM Canada for their own export.
